

AIRPARK DEVELOPMENT PROCEDURES

Any professional developer, business and or individual may at any regular meeting of the Airport Airpark Committee propose preliminary plans for development within the Village owned Airpark. Following is a step by step guideline for obtaining development approval. Please be advised that each proposal is considered on a case by case basis and procedures may vary.

All proposals shall first be presented to the Airport Airpark Committee for preliminary discussion and guidance. The developer, business and or individual should present four (4) copies of a sketch plan. Include a written description of the proposal. This proposal should contain the following information.

- Type of business.
- Acreage required.
 - SQ/FT of building needed
 - Number of parking spaces required.
 - Daily number of deliveries per day.
 - Daily number of customer visits per day.
- Whether lease or purchase property.
- Number of employees.
- Estimated power needs.
- Estimated water demand.
- Estimated generated wastewater
 - Any pretreatment required
- Monthly trash generated.
 - Tons per month.
 - Hazardous waste generated.
- Monthly recyclables.
 - Tons per month.
